Elite Bohemia

DESIGN LIGHTING FIXTURES

Traditional quality, modern design

ELITE BOHEMIA is a Czech family company that has become famous in the glass industry for its luxurious lighting fixtures made of Czech crystal. After 25 years of successful activity on the market of traditional chandeliers, it expanded its product portfolio and entered the world of modern design.

Design lighting fixtures from its production are inspired by current trends. They are designed to illuminate spaces and enrich customer‘s lifestyles. Their high quality and master craftsmanship is reflected in every detail.

JOSEF CHLUM

DIRECTOR OF COMPANY

Josef Chlum, a successful entrepreneur with a clear vision, who has been leading the thriving glass company ELITE BOHEMIA for almost 30 years.

Under his leadership, the company has grown from a small family business into a prominent glass company that today trades with more than 30 countries around the world, primarily in the Middle East, European Union, USA, and Southeast Asian countries.

Josef‘s love for glass began in childhood. His father, a glass presser at Jablonec Glassworks, instilled in him a feeling for the beauty and potential of glass. Josef decided to combine this passion with strategy and business skills, so he studied economics and specialized in foreign trade with Czech glass.

His dream was not only to continue the family tradition, but also to expand Czech glass throughout the world. His vision, determination, and ability to lead a team make him an inspiring figure not only in the business environment, but beyond it as well.

JIŘÍ KRIŠICA

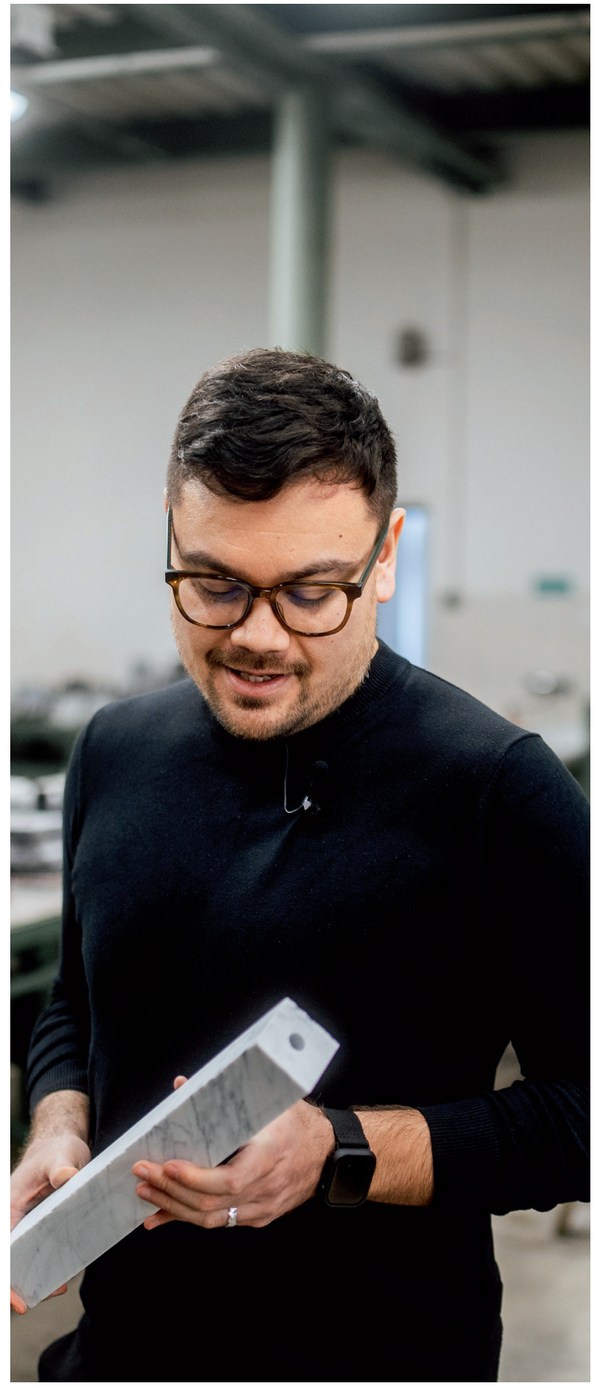
HEAD OF DESIGN

Jiří Krišica is a talented Czech designer known for combining traditional materials with modern technologies. Since 2024, he has been designing for ELITE BOHEMIA and participating in projects where he applies his distinctive vision. His work in lighting design has gained recognition from professionals and the public worldwide.

He grew up in the heart of the Czech glass industry, where glass is not just a material, but also culture and art. After studying in Železný Brod and at Czech Technical University in Prague, he gained experience on international projects.

His approach combines technical precision with visual appeal. He creates solutions that are both thoughtfully detailed and visually striking. Besides new projects, he focuses on sustainability and innovations in material technologies. Although their implementation in glassmaking is challenging, he strives for products that are not only beautiful but also environmentally conscious.

Jiří Krišica is a visionary with the courage to experiment and seek new paths in his field.



ELEMENTIS

ELEMENTIS

A masterful combination of marble and Czech crystal

The Elementis lighting fixture is the result of a desire to connect the contrasts of two iconic materials – natural marble and Czech crystal. Every detail of this designer light was created with emphasis on timeless values such as quality, luxury, elegance, and functionality.

The smooth and minimalist shape of the marble, available in two colour variants (black Nero Marquina and white Carrara), creates a perfect contrast with the sophisticated glass element made of Czech crystal. After the pressing technology, it is precisely ground and polished to create a perfect shape that produces unique lighting effects.

GLITTERING EYE

GLITTERING EYE

Crystal magic hidden in a geode

The creation of the GLITTERING EYE lighting fixture was inspired by a geode – a natural stone, the interior of which is a cavity filled with smaller or larger glittering crystals of quartz or amethyst.

The densely shaped component resembles this natural stone. The cut crystals of Czech crystal inside the component evoke glittering gems and give the lighting fixture a unique shine and elegance.

Thanks to the perfect combination of handwork and skill of Czech glassmakers, each component is completely original, just like nature itself.

SEASHELL

SEASHELL

Shimmer of Luxury

The Seashell design will amaze you with its perfect organic shape based on the shape of a natural seashell. For many this equally symbolizes a new beginning and a mystery.

The hand applied gold adds to the authenticity of the crystal work compared to the natural seashell of the chandelier and table lamp made of Bohemian glass. This artistically depicts the iridescent reflection of a real seashell and elegantly decorates the circumference of this original design.

LANTERN

LANTERN

The light of wishes and elegance

The Lantern light fixture was inspired by the traditional lantern, which is a symbol of happiness, hope, and wishes in many cultures.

It is made of glass, with approximately 80% of its production consisting of precise handwork and the remaining 20% representing a semi-finished product made from ready-made glass with internal grooving.

The fixture‘s illumination is provided by an integrated LED chip, which allows it to function as a full-fledged light fixture. However, it can also be used as a decorative object without a light source.

ICEBERG

ICEBERG

Arctic elegance

The Iceberg crystal lighting fixture brings the magic of Antarctic and Arctic glaciers directly into the interior. Its design was inspired by the majestic icebergs that break off from the ice shelves and float through the ocean.

Each individual hand-formed Czech crystal component is suspended from delicate metal strings, creating the impression of the outstretched wings of the birds that inhabit these frosty landscapes, which immediately attract attention.

The external lighting of the fixture creates fascinating effects reminiscent of the glitter of ice crystals.

Thanks to the beautiful details of the components, the lighting fixture is ideal for hanging above the bar, dining table or sitting area in the living room, so that we can admire its beauty
up close.

MELODY

MELODY

Crystal Serenade

The MELODY light fixture design consists of playful crystal rods. Thanks to their arrangement, they resemble a perfect crystal melody that resonates when gently caressed by a ray of sunlight.

Each rod is a masterpiece, carefully crafted with love and attention to detail. Its surface is adorned with delicate cuts that create incredible lighting effects.

The size, shape, and density of the cuts influence not only the appearance of the fixture but also its overall impression.

AMULET

AMULET

Symbol of protection and happiness

The inspirations for the creation of the AMULET light fitting have become legendary accompanying man since time immemorial.

According to world mythology amulets protect, bring luck and express the unknown.

The modern concept of the amulet symbol will bring a whiff of magic with a promise of new life.

The designer of the light fittings worked with the idea of the modern concept of a symbol in which the magic of the amulet is combined with the magic of Bohemian glass.

WATER

WATER

The essence of purity in every drop

The designer light fixture WATER will illuminate your interior, giving it energy and luxurious style. Its creation was inspired by nature and the dynamics of a water geyser, which symbolizes movement and life.

The WATER light fixture is made of high-quality Czech crystal. Thanks to a special technique, tiny air bubbles are inserted into the glass, giving it fascinating depth and a unique optical effect.

This light fixture is ideal for lovers of subtle extravagance and precise craftsmanship. It fits perfectly into modern interiors, where it becomes not only a functional light source but also a distinctive artistic element.

FLAME

FLAME

Fire in the heart of crystal

The Flame design will captivate you with its unbridled energy that comes from fiery flames. Their strength, shape, different sizes and colors were at the origin of this fresh design.

Its appearance consists of a combination of handmade components from Bohemian crystal. The unique attachment adds dynamism to the whole composition.

STREAM

STREAM

The story of water expressed throught design

The Stream lighting fixture made of Czech crystal uniquely connects aesthetics, functionality, and the symbolism of the aquatic world.

One of the key design elements is the hand-shaped components whose design creates a delicate wave that from below resembles the movement of water on the surface, or the graceful Movement of a stingray in the sea.

This living shape changes its appearance depending on the angle of view and, like water, reflects light. This effect brings life to the space while introducing a piece of nature into the interior.

In the Stream lighting fixture design, color plays a key role. The combination of cool tones with transparent crystal enhances the impression of flowing water and simultaneously allows the fixture to adapt to various environments.

The STREAM lighting fixture is perfectly suited to residential spaces, as well as public spaces. For example, wellness zones or spaces with pools.

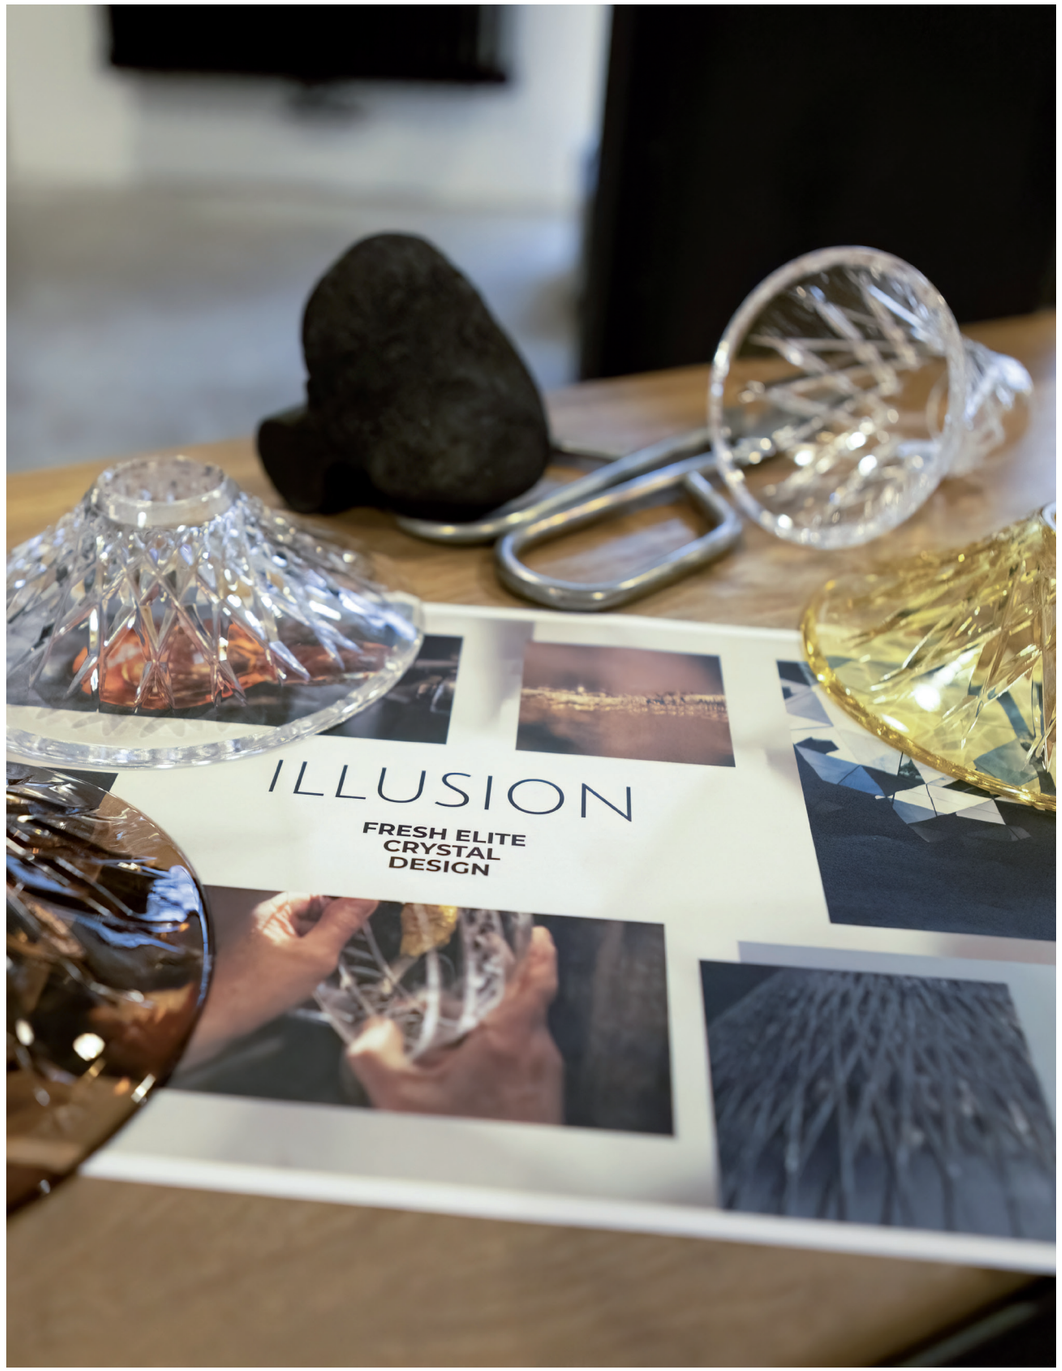
ILLUSION



ILLUSION

Fascinating play of optical effects

The Illusion crystal lighting fixture masterfully combines the traditional elegance of a classic chandelier with an innovative modern design.

Its unique suspension makes it possible to create endless variations and adaptations of the classic style in a contemporary concept.

The lighting fixture is also exceptional thanks to its new finish called Kaleidoscope. This unique cut is created by crossing a checkered pattern, creating fascinating optical effects that resemble looking into a kaleidoscope. Thanks to high-quality Czech crystal and a masterfully mastered glass grinding technique, the individual cuts beautifully refract the light.

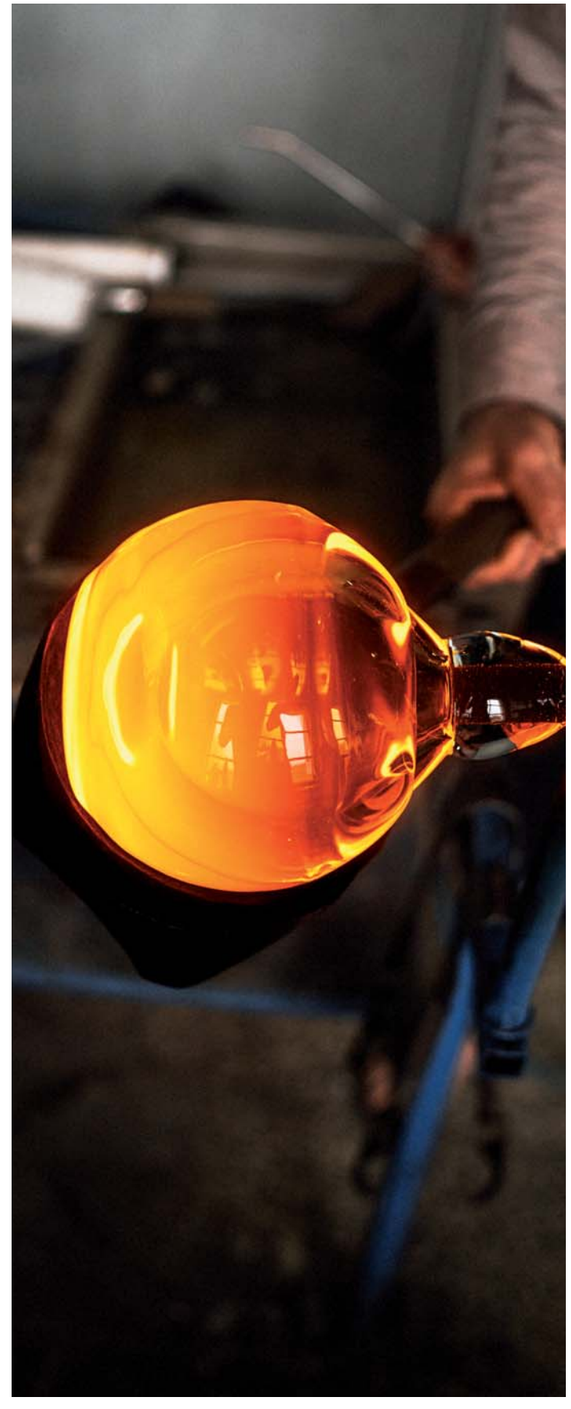
Elite Bohemia

HERITAGE LIGHTS

WELCOME TO THE WORLD OF ELITE BOHEMIA

Nestled in the small town of Semily, just 90 km from Prague, Elite Bohemia is part of the historic Crystal Valley, the birthplace of Czech glassmaking and world renowned Bohemian crystal. This picturesque yet rugged region, rich in natural materials, has shaped generations of master glassmakers.

Our teachers were the craftsmen of old, who inherited their skills from their fathers. We continue to build on their artistry, creating a modern glassmaking company that seamlessly blends traditional craftsmanship with innovative technologies and the evolving desires of our clients.



WHAT IS BOHEMIAN CRYSTAL

Bohemian Czech crystal originated in the 17th century, and by the early 18th century it had already gained worldwide acclaim for its exceptional optical clarity and brilliance.

Chandeliers made from Czech crystal illuminated the palaces of Louis XV, Maria Theresa, Empress Elisabeth, and Osman III, earning a reputation for excellence that endures today.

PRODUCTION OF CRYSTAL CHANDELIERS

Creating a crystal chandelier is a refined process that merges centuries old craftsmanship with modern precision.

It begins with selecting premium quality crystal, expertly cut and polished to maximize brilliance.
Each component is then hand assembled, where meticulous attention to detail ensures flawless execution.
Crystal elements are paired with hand crafted metal components, carefully shaped and finished to perfection.

The result is a luxurious lighting fixture that illuminates interiors while transforming spaces with elegance and character. Every chandelier is a unique masterpiece, reflecting the skill, dedication, and artistry of its creators.

TRADITIOANAL CRYSTAL CHANDELIERS

Richly decorated fixtures celebrated for their unmistakable sparkle and timeless charm. These pieces appeal especially to those who appreciate classic elegance and traditional design.

DESIGN LIGHTING FIXTURES

Original decorative lighting distinguished by a unique design concept and compelling artistic vision. Crafted using a combination of contemporary technologies, premium materials, and master level glassmaking, these fixtures meet the highest standards for modern homes, luxury interiors, and public spaces.

LEADERSHIP & DESIGN TEAM

JOSEF CHLUM

CEO, ELITE BOHEMIA

Josef Chlum is a visionary entrepreneur who has led ELITE BOHEMIA for nearly 30 years, transforming it from a small family business into a distinguished glassmaking enterprise trading in more than 30 countries worldwide, including the Middle East, European Union, USA, and Southeast Asia.

His passion for glass began in childhood. His father, a glass presser at the Jablonec Glassworks, introduced him to the beauty and potential of glassmaking. Inspired by this heritage, Josef studied economics with a focus on foreign trade in Czech glass, combining tradition with strategy and business acumen.

His dream was not only to continue the family legacy but also to bring Czech crystal craftsmanship to the world stage. Josef's vision, determination, and leadership have made him an inspiring figure in the industry and beyond.

JIŘÍ KRIŠICA

DESIGNER

Jirí Křišica is a gifted Czech designer known for blending traditional materials with modern technologies. Since 2024, he has collaborated with ELITE BOHEMIA as an external designer, creating lighting fixtures and contributing a unique artistic perspective to numerous projects.

His work has earned global recognition, reflecting his distinctive creativity and visionary approach. He combines technical precision with aesthetic sensitivity, resulting in designs that are both meticulously crafted and visually captivating.

ORIGINAL CLASSICS

The Original Classics collection features richly adorned crystal chandeliers that enhance residential and public interiors with majestic presence and exceptional brilliance. Their characteristic look arises from the harmonious combination of elegantly shaped arms and crystal components, bowls, balls, and centrepieces, forming fixtures that radiate timeless beauty and craftsmanship.

EVERGLOW

EVERGLOW

The Everglow crystal chandelier exudes timeless elegance, transforming interiors into stylish and sophisticated spaces. Its luxury and meticulous craftsmanship are evident in every detail.

Everglow is one of the evergreens of ELITE BOHEMIA, offering the perfect balance between the fixture's size and ornamentation. Smaller sizes are ideal for rooms with lower ceilings, while its universal design complements both classic interiors and modern minimalist spaces.

Available in 15 sizes, the Everglow chandelier elevates ordinary spaces into truly exceptional ones.

DANCING LIGHT

DANCING LIGHT

The Dancing Light chandelier brings the ethereal glow of historic sacred spaces into contemporary interiors. Its design is inspired by richly decorated crystal chandeliers that adorned churches in the 19th century.

The chandelier's uniqueness lies in its unusually tall sleeves, which elegantly display the inserted candles against a minimalist silhouette. Crafted from premium Bohemian crystal, a heritage of excellence spanning back to the 17th century, its sparkling beauty once adorned the palaces of distinguished monarchs, including Louis XV of France and Empress Maria Theresa of Austria.

Ideal for spacious classic or modern interiors, the Dancing Light collection adds sophistication and historical charm.

ORNAMENTA

ORNAMENTA

The Ornamenta chandelier balances elegance, functionality, and refined design. Carefully considered proportions ensure an optimal ratio between diameter and height, making it suitable for rooms with lower ceilings.

Its craftsmanship immediately captivates, highlighted by the crystal “fountain” and the crystal lampshade surrounding the candles, which provide lightness and airiness while emphasizing the fixture’s sophisticated appearance.

Designed to meet the expectations of the most discerning clients, the Ornamenta chandelier serves as a harmonious centerpiece, enhancing any interior with elegance and style.

NOSTALGIA

NOSTALGIA

The Nostalgia crystal chandelier brings a unique charm and warmth to any interior, creating a warm and inviting ambiance that immediately captivates.
One of ELITE BOHEMIA's oldest and most cherished models, it blends traditional craftsmanship with timeless design, bringing a piece of history into modern living spaces.

Crafted from high-quality Czech crystal, every detail reflects the meticulous handwork of master glassmakers. Nostalgia is perfectly suited for smaller interiors, including apartments, family living rooms, or elegant bedrooms.

This chandelier is available in two exquisite styles. The first features a crystal lampshade around the candles, adding romance and subtle elegance for those who appreciate simplicity and traditional design. The second style offers additional decorative details, including golden stripes on the lampshade, a twisted crystal fountain, and two inverted crystal bowls beneath the candles, creating a luxurious and distinctive statement for interiors seeking a touch of originality and sophistication.

QUEEN OF LIGHT

QUEEN OF LIGHT

The Queen of Light crystal chandelier is inspired by the shape of a richly adorned royal crown. It consists of two distinct parts, the upper section exudes lightness and refinement, while the lower section impresses with rich, sparkling decoration. Both elements are delicately connected by stylish pearl chains, forming a perfectly balanced composition.

Its uniqueness lies in the lower part's opulent design, which features 20 percent more decorative crystal components than is typical for chandeliers of this style. Crafted from premium Bohemian crystal, the Queen of Light is ideal for grand luxury halls or concert venues, creating a truly majestic centerpiece.

ROYAL CRYSTAL

The Original Classics collection features richly adorned crystal chandeliers that enhance residential and public interiors with majestic presence and exceptional brilliance. Their characteristic look arises from the harmonious combination of elegantly shaped arms and crystal components, bowls, balls, and centrepieces, forming fixtures that radiate timeless beauty and craftsmanship.

CRYSTAL HAT

CRYSTAL HAT

CRYSTAL HAT's design resembles popular straw hats, which are a symbol of beautiful summer days and carefree leisure. Their traditional appearance inspired our designers to create a lighting fixture whose light is beautifully diffused into the space thanks to the hand-polished edges.

The lighting fixture is made of the highest quality Bohemian crystal, which has its origin in the 17th century. Thanks to it, it has a unique shine, unmistakable sparkle and brightness.

We offer Crystal Hat as a pendant, a ceiling chandelier and a larger crystal chandelier, in gold and chrome metal versions.

Its shape can be adjusted according to personal preferences and needs.

CRYSTAL BOUQUET

CRYSTAL BOUQUET

The Crystal Bouquet design was inspired by a beautiful bouquet of flowers, which, thanks to its color and fragrance, brings joy and satisfaction.

Its hand-cut parts of high-quality Bohemian crystal represent delicate petals that shine perfectly with every touch of the sun's rays.

The originality of the design lies in the distinctive shape and length of its shoulders. Thanks to them, an unusually wide diameter of the lighting fixture was created without having to increase its height. Longer arms give the possibility of more decoration.

Crystal Bouquet is perfect for rooms with low ceilings.

MAGNIFICENCE

MAGNIFICENCE

The crystal chandelier Magnificence impresses with its original design. Its origin was inspired by the Baroque, which is characterized by decoration, richness and grandeur.

The appearance of the chandelier consists of a total of 18 arms in two sizes, which were specially designed for this chandelier. The arms are decorated with a total of 492 decorative trimmings made of Czech crystal. Each arm is finished with a special shape of cut tulip, which is decorated with traditional Czech decor. The individual arms are interconnected by 18 crystal chains.

The chandelier Magnificence is also decorated with hand-cut bells decorated with a traditional decor, which is very popular. The chandelier can be made with gold and silver metal accessories.

With its magnificent appearance, the crystal chandelier Magnificence perfectly complements the spacious interior of entrance halls, hotel lobbies, stylish castles or churches.

CELESTINE

CELESTINE

The Celestine chandelier uniquely combines traditional crystal chandelier elements with modern design. It is made from Czech crystal, which has been a symbol of purity, brilliance, and precise craftsmanship for centuries.

The main design element of this lighting fixture is the Prizma crystal pendant. Its hand-cut surface perfectly refracts light, creating unique brilliance that adds a magical atmosphere to any interior.

This chandelier features up to 80% handcrafted work. It is available in versions with 50 or 80 arms. A stylish floor lamp is also available.

Thanks to its impressive size and elegant design, it is ideal for use in larger residential halls, hotel lobbies, luxury restaurants, or representative spaces intended for social events.

SHINING GEM

SHINING GEM

The Shining Gem crystal chandelier embodies a long tradition of master craftsmanship, seamlessly uniting classic design with modern precision.

Each component is individually hand blown and hand cut, ensuring the uniqueness of every piece and giving the chandelier its distinctive character. Special engraving on the bowls and central elements creates a captivating play of light and enhanced optical effects that draw the eye from every angle.

Thanks to its wide range of sizes, from 8 arms to an impressive 60 arms arranged across five tiers, Shining Gem is an ideal choice for illuminating large luxury spaces such as concert halls, prestigious residential interiors and hotel entrance halls. This chandelier adapts effortlessly to a variety of architectural needs and expectations.

HERITAGE CRYSTAL

HERITAGE CRYSTAL

The collection of luminaires HERITAGE CRYSTAL belongs to the ROYAL CRYSTAL series, which is the flagship of Elite Bohemia. Its luminaires excel not only in the high quality of Czech crystal, but also in the 100% handmade.

The decorative motif of the luminaires consists of the traditional PK500 cut, which is inherited from father to son in the Czech Republic. It was developed in the middle of the 19th century by the Czech glass cutter Ladislav Prostrednik from Dobruska.

The collection HERITAGE CRYSTAL offers customers complete room lighting. It contains a total of 5 crystal chandeliers in five size variants. 3 wall lamps in three size variants and 3 table lamps in various designs. The luxury collection HERITAGE GOLD is available with gold metal accessories. At the customer's request, the size of individual luminaires or the appearance of hand-applied gold can be adjusted.

This magnificent and unmissable design will become the perfect jewel of any private residence, lobby of luxury hotels or common areas of theaters or galleries.

MAJESTY OF BRILLIANCE

MAJESTY OF BRILLIANCE

The Majesty of Brilliance lighting collection belongs to the Elite Bohemia – Royal Crystal line, which stands out for its perfect hand-crafted quality.

Surface is decorated with a traditional cutting from the 19th century. Its uniqueness lies in the perfect detail, which is based on 100% accuracy of the individual polished surfaces.

It is a true art that only experienced glass masters can create. The entire collection is made of Bohemian crystal of the highest quality. Rich decoration combined with highly visible brilliance will fill every room with a unique atmosphere.

Majesty of Brilliance is available in several size variants, thanks to which it is possible to completely equip a larger family residence as well as a classy hotel.

LIGHT
OF DIAMOND

LIGHT
OF DIAMOND

The Light of Diamond lighting collection extends to the Royal Crystal line, which stands out for its perfect combination of hand-polished fittings with hand-blown and cutted components.

Its richly embellished Bohemian crystal design was inspired by the sparkle of a perfectly cut diamond that shines from any point of view.

The diamond motif in the form of perfect hexagons also decorates the individual crystal components of the Light of Diamond collection. This traditional but rare cut was created by a combination of precise manual work and the skill of an experienced glassmaker.

The Light of Diamond design fits perfectly into the classic and modern interior of a family residence or a luxury hotel.

ARISTOCRAT

ARISTOCRAT

The Aristocrat crystal chandelier is a symbol of luxury, elegance, and masterful craftsmanship.

Its unique charm stems from its richly decorated design. The central pieces and bowls with glass sleeves are decorated with original cut patterns created specifically at Elite Bohemia. It was designed to enhance the optics of the crystal chandelier and increase its brilliance. Thanks to its precise workmanship, this fixture brings a greater sense of nobility to any space.

The Aristocrat chandelier is available in gold or silver metal finishes. It comes in various size variants, from the smallest with 12 arms to the largest with 84 arms.

The chandelier‘s appearance can be customized to individual customer requirements and taste. This fixture is an ideal choice for prestigious spaces with high ceilings, such as luxury villas, hotels, historic buildings, or modern architectural gems. The beauty and sophistication of the Aristocrat chandelier will shine in any room.

GILDORIA

GILDORIA

The Gildoria crystal chandelier is a celebration of Czech glassmaking heritage. Its design harmoniously connects traditional craftsmanship with original design of Elite Bohemia.

The uniqueness of this lighting fixture lies in its high proportion of hand craftsmanship and rich ornamentation, created through a combination of hand blown and hand cut crystal components. The design is further enhanced by hand-painted and gilded decoration, a technique passed down through generations.

The gold finish of the metal components accentuates the chandelier's luxurious character and refined elegance. Thanks to its variable construction, Gildoria can be produced in a wide range of sizes, from intimate five arm versions to magnificent chandeliers featuring up to one hundred arms.

Gildoria is an ideal choice for representative and luxurious palace style interiors, where it becomes an opulent focal point and a symbol of elegance, tradition, and timeless luxury.

Elite Bohemia

Possible modifications of Crystal lighting fixture

Possible modifications of Crystal lighting fixture

The range of GOLDEN GLOW light fixtures can be adjusted according to the customer's wishes. We can change the size of the chandelier, the type, number and style of hanging pendants.

To prepare the chandelier according to your wishes, it is enough for us:

- specifications of the chandelier from our offer that applealed to you
- know your desired dimension
- define the number of bulbs

We adapt to your specifications. We will prepare a rendering of the chandelier for you within 4 days of mutual confirmation of the assignment.

Elite Bohemia

Thank you

for your attention

log

energy from nature ...

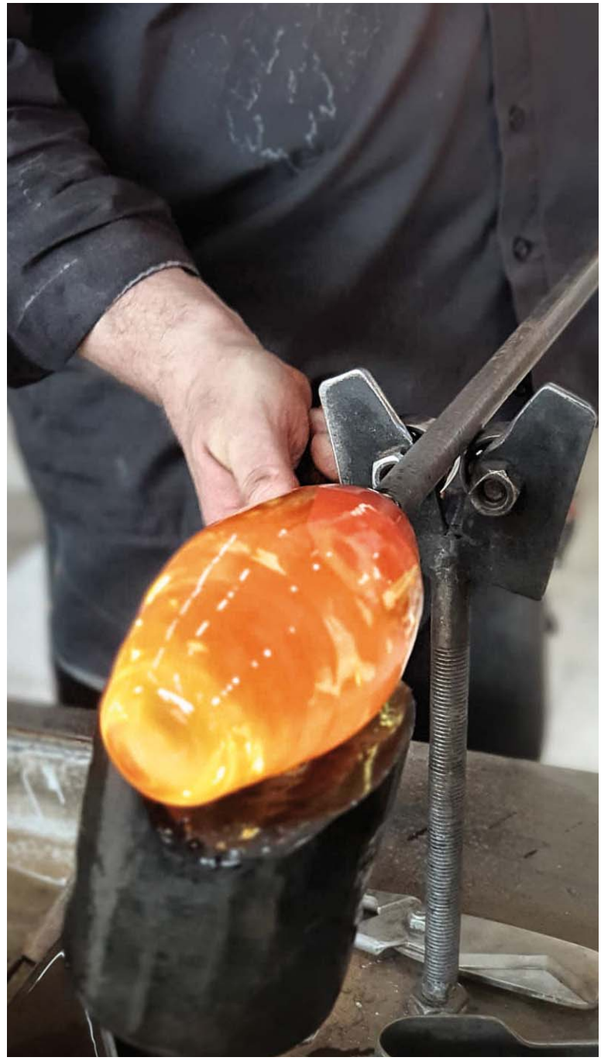
LOG

.... we draw on energy from nature

An early evening walk along a forest path will freshen the mind, remove stress and bring a feeling of calm. Free us from the past and let us relish the magic of the present.

Since time immemorial, wood has inspired and continues to inspire masters of the glass craft. The designers of the ELITE BOHEMIA company also succumbed to its charm, who decided to make this unique organic shape from Czech crystal using traditional glassmaking technologies that are passed down from father to son in northern Bohemia.

An important part of the crystal element are its branches, which are naturally connected to the main part of the component itself.



The shape of the crystal light fitting LOG resembles a piece of natural wood.
It took almost a year to create from the moodboard, through the sketch,
the production of the prototype to the final product.

During the development of the lighting, great emphasis was placed not only
on the size and appearance, but also on the surface itself, which resembles the bark
of a tree. Its unique appearance was created thanks to the decorating technology
of the 19th century, which was used mainly in architecture.
The GOLD variant is additionally decorated with hand-applied gold.
